Ayesha Nisha M
Quality Assurance Engineer

Experienced QA engineer at Cognizant with 7 years of experience in Selenium WebDriver,TestNG,Cucumber framework,REST API,and performance Testing(Jmeter)

✉ nishaeliyas054@gmail.com

WORK EXPERIENCE

Associate
Cognizant

01/2017 - Present   Chennai
Achievements/Tasks

- Full time automation tester with selenium Java
- Scripted regression scenarios based on the requirement
- Defect tracking and retesting based on the Agile Methodology
- Have a knowledge in RestAPI and Preformance Testing(JMeter)

ACHIEVEMENTS

- Received an "On-the-Spot Award" for Exceptional Achievements (03/2023)

Achieved a 30% reduction in critical defects through comprehensive test plans and cases, improving application quality. Collaborated for a 20% decrease in defect resolution time, enhancing the user experience.

SKILLS

`Communication` `Team Work`
`Problem Solving` `Creativity`
`SQL` `Python (Beginners)`
`Selenium WebDriver`
`Full stack API(RestAssured and JMeter)`

EDUCATION

B.E(Electronics and Communication Engineering)
K.Ramakrishnan college of engineering
CGPA : 81

01/2012-31/2016   Trichy,India

PROJECTS

Hiscox Insurance(BUD Application)
09/2017 - 05/2019

- Conducted manual and automated testing for a variety of complex front-end and back-end systems.
- Developed and maintained test plans, specifications, test suites, and test cases to ensure comprehensive test coverage.
- Collaborated with cross-functional teams to define testing scope, requirements, and establish test entry and exit criteria for key initiatives.
- Managed the execution of test cases, including resource coordination and timely issue resolution.

Hiscox Insurance(MAGIC Application)
`05/2019 - 10/2022`

- Acted as a liaison between business stakeholders, development teams, business analysts, and project managers to ensure alignment with project objectives.
- Generated detailed reports and documentation to provide regular updates to stakeholders and management, ensuring transparency in the testing process.
- Actively participated in all stand-up, planning, review, and retrospective meetings, fostering effective collaboration and communication within the project team.
- Worked with upstream and downstream application teams to execute E2E test cases.

Empower Retirement
`10/2022 - Present`

- Moved as a ETL Tester and involved in automating the scripts using python and also have a knowledge in SQL
- Managed and maintained test data using SQL, ensuring data integrity in test environments. Worked with CI/CD tools like Jenkins and version control systems like Git to streamline the testing
- Contributed to continuous improvement by suggesting enhancements to project strategies and testing processes.
- Collaborated with product managers to define quality metrics and Key Performance Indicators (KPIs) to measure and track application performance and quality over time.
